

# Cibes A4500 Rucksack

The platform lift  
designed for  
narrow spaces

**Cibes A4500 Rucksack is an attractive platform lift especially designed for narrow spaces.**

As the machine room and control panel is located along the short side of the lift, it is possible to increase the door width. This is a great advantage when space is limited.

- 900 mm door width
- Steel or completely glazed shaft (all 4 sides)
- Aluminium or steel doors with panoramic window or vision glass panel
- A variety of accessories and options
- Hundreds of RAL colours

**Comfortable & Easy to use**

Runs smoothly and silent. Simply press the hold-to-run button to the desired floor level.

**Safety**

Safety edges, emergency lighting and an alarm button guarantees that you feel completely safe.

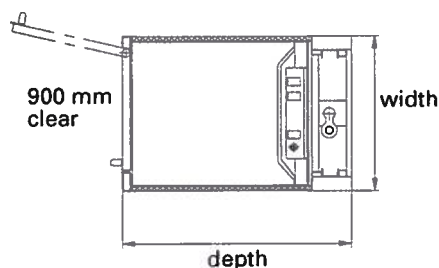

**Quickly installed**

Installation is done by our installers within a few days thanks to the pre-prepared construction kit. No pit is necessary, can be floor mounted without causing any damage to the building.

**CE marked**

A4500 Rucksack is in compliance with all of the relevant essential Health and Safety requirements.
